COLD WINDS CAN'T TOUCH THEM WHILE THEY'RE AT PALM BEACH

In this group of youngsters, one of the first pictures from Palm Beach, out for a dip in the briny blue at that famous wintering resort, are the children of Mr. and Mrs. John S. Phipps of New York, and Mrs. Malcolm Chase of Providence, R. I., and the Hon. and Mrs. Frederic Guest.

theless enjoyed themselves to the fullest extent. During the noon hour there were several dinner parties, held at the various hotels and clubs. The attendance was even better than had been expected, and all of those who came were forced to brave below zero weather.

M. S. Binswanger, of Memphis, presided as chairman of the meeting. It was decided that the next meeting will be held at Chicago, at the Congress Hotel, in accordance with the arrangements previously adopted. The chairman of the meeting, which will be held some time in February has not yet been selected. The executive committee will make a choice at a meeting to be held within the next few days.

Another committee was appointed at the meeting for the purpose of deciding on the working out of a new plate glass list, which has been suggested.

One of the most interesting parts of the meeting, in addition to the price talk, was the reports which were made by the members from cities outside of Chicago. Almost without exception these reports were most encouraging, showing a condition of demand on both plate and window glass which is almost unsurpassed for this season of the year.

Following the close of the meeting, the visiting jobbers lost no time in catching trains back to their homes. The extremely cold weather did not make the theatrical and other attractions of the city look good to them, according to their Chicago friends.

W. S. Kenney, of the James H. Rice Company, was ill with a slight attack of grippe last week, according to his friends in the trade here. While he did not visit his office for a couple of days, his indisposition was not regarded by his friends as serious.

The Chicago branch of the Pittsburgh Plate Glass Company last week installed several large pieces for the Boston store, one of the large department stores here.

Happy Old Age.

When old age carries with it hosts of friends, good health and an abundance of this world's goods, it should be as happy as any period of our existence. That is old age as it should be, but too often it means poor digestion, torpid bowels, a sluggish liver and a general feeling of ill health, despondency and misery. This condition can be greatly alleviated, however, by taking one of Chamberlain's Tablets each day immediately after supper. That will strengthen the digestion, tone up the liver and regulate the bowels, then that feeling of despondency will give way to one of hope and good cheer. Obtainable everywhere.—Advertisement.

HELD IN JAIL

At Parkersburg for the Grand Jury Next Week is Clarksburg Italian.

PARKERSBURG, Jan. 22.—Buel Ross, an Italian from Clarksburg, who was arrested at Williamstown by Officer Bush on the charge of bootlegging, has been arraigned before Mayor Carlyle and, after a hearing, was held for the grand jury which convenes here Monday. He could not give the \$500 bond required and was brought here and placed in jail. In Ross's possession was found a suit case containing six quarts and twelve pints of whiskey. Immediately after Ross's arrest, another suit case was found abandoned at the Ohio river division station at Williamstown which was full of bottles of whiskey. Like Ross's grip, it was labelled and is supposed to have been the property of some other bootlegger, who witnessed the arrest of the Italian and, becoming alarmed, dropped his grip and took the next train out of the village.

WINDOW GLASS TO BRING MORE

Than It Does Now before the End of the Fire is the Prediction Now.

PITTSBURG, Jan. 22.—Another advance in the price of window glass before the end of the fire is predicted according to the Glassworker, which says:

Window glass has not yet reached its price limit, according to men prominently identified with the industry and supposed to be the best posted as to the tendencies of the market.

The quotations will rise ten to fifteen points, or even a shade higher, is said to be a strong probability, and it is further predicted that the change will be made fully as unexpectedly

as was the last.

It would not surprise certain men if glass is quoted at 80 before the end of the fire.

This prediction was made Tuesday at the meeting of the Western Glass Jobbers in Chicago, and while the jobbers did not seem to take the warning very much to heart, the prophecy stands to be fulfilled.

WESTERN JOBBERS AT THEIR REGULAR MEETING

CHICAGO, Jan. 22.—Forty-one members of the Western Glass Jobbers' Association were on hand Tuesday to attend the regular monthly meeting of the organization, which was held in the Congress hotel, the usual meeting place. The interest was high on account of the recent price talk.

The all-day session of the jobbers had more to do with the plate glass situation. No change is contemplated by the jobbers in the matter of window glass. Plate glass is in the hands of a committee which was appointed, and it is not at all improbable that the western jobbers will declare another advance on plate glass in the near future. The jobbers express themselves as well pleased with the present situation.

While there were no social features on the program, the jobbers never-
